

**HIGH FLOW + BEAUTIFUL FINISH**

# HYDROPONIC GROWING SYSTEM BRAND

FLEXIBLE NECK FOR LAMP

## AVIENT SOLUTION

Versalloy™ XL Thermoplastic Elastomer

## WHY AVIENT?

- Supported the development process, from initial design to product launch, to meet the needs of both the molder and OEM
- Delivered a TPE solution that enabled a 22" flow line with a wall thickness of 0.225"
- Provided technical support and shared process best practices to minimize cosmetic defects
