

Philip G. Clark, Ph.D.
SVP, Chief Technology Officer

Dr. Phil Clark is Senior Vice President, Chief Technology Officer, for Avient Corporation, the world's premier provider of specialized and sustainable material solutions and services. He is responsible for developing and executing Avient's long-term innovation strategy for new and emerging products and technology platforms, at the intersection of high growth markets and secular trends.

Dr. Clark joined Avient in 2024 from Nouryon, a global specialty chemicals organization where he served as Chief Technology Officer. He previously worked at 3M for 17 years, leading R&D efforts in both corporate innovation and business segment roles, including an international assignment based in South Korea. He eventually served as 3M's Vice President for Research and Development for the Automotive and Aerospace Solutions division.

He holds a Ph.D. and Master's degree in Physical Chemistry from Harvard University in Massachusetts and a Bachelor's degree with a dual major in Chemistry and Biology from Bates College in Maine.
