#### **1. PRODUCT AND COMPANY IDENTIFICATION** POLYONE CORPORATION 33587 Walker Road, Avon Lake, OH 44012 Product Stewardship (770) 271-5902 Telephone : **Emergency telephone** : CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure number or accident). Product name : PV-1918 BK EVA CC10006159 Product code : Chemical Name Mixture :

#### 2. COMPOSITION/INFORMATION ON REGULATED INGREDIENTS

Mixture

: Industrial Applications

:

| Components   | CAS-No.   | Weight % |
|--------------|-----------|----------|
| Carbon black | 1333-86-4 | 30 - 60  |

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure.

#### POTENTIAL HEALTH EFFECTS

| : Inhalation, Ingestion, Skin contact   |
|---|
|   |
| <ul><li>Resin particles, like other inert materials, can be mechanically irritating.</li><li>May be harmful if swallowed.</li></ul> |
| : Resin particles, like other inert materials, are mechanically irritating to eyes.   |
| : Experience shows no unusual dermatitis hazard from routine handling.  |
| : Refer to Section 11 for Toxicological Information.  |
| : None known.   |
|   |

# MATERIAL SAFETY DATA SHEET **PV-1918 BK EVA**

Version Number 1.0 Revision Date 03/07/2007 Page 2 of 6 Print Date 11/26/2011

| Inhalation                          | :    | Move to fresh air in case of accidental inhalation of fumes from<br>overheating or combustion. When symptoms persist or in all cases of<br>doubt seek medical advice.               |
|-------------------------------------|------|---|
| Ingestion                           | :    | Do not induce vomiting without medical advice. When symptoms persist or in all cases of doubt seek medical advice.  |
| Eyes                                | :    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.  |
| Skin                                | :    | Wash off with soap and plenty of water. If skin irritation persists seek medical attention.   |
|                                     |      | 5. FIRE-FIGHTING MEASURES   |
| Flash point                         | :    | Not applicable  |
| Flammable Limits                    |      |   |
| Upper explosion limit               |      | Not applicable  |
| Lower explosion limit               | :    | Not applicable  |
| Autoignition temperature            | :    | Not applicable  |
| Suitable extinguishing media        | :    | Carbon dioxide blanket, water spray, dry powder, foamnone.  |
| Special Fire Fighting<br>Procedures | :    | Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne contaminants.                                    |
| Unusual Fire/Explosion<br>Hazards   | :    | Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.  |
|                                     | 6. A | CCIDENTAL RELEASE MEASURES  |
| Personal precautions                | :    | Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.  |
| Environmental precautions           | :    | Should not be released into the environment. The product should not be allowed to enter drains, water courses or the soil.  |
| Methods for cleaning up             | :    | Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal. Refer to Section 13 of this MSDS for proper disposal methods. |
|                                     |      | 7. HANDLING AND STORAGE   |
| Handling                            | :    | Take measures to prevent the build up of electrostatic charge. Heat only in areas with appropriate exhaust ventilation.   |
| Storage                             | :    | Keep containers dry and tightly closed to avoid moisture absorption   |

## MATERIAL SAFETY DATA SHEET **PV-1918 BK EVA**

#### Version Number 1.0 Revision Date 03/07/2007

Page 4 of 6 Print Date 11/26/2011

Hazardous decomposition products

: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.

#### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

| CAS-No.   | Chemical Name | Effect           | Target Organ              |
|-----------|---------------|------------------|---------------------------|
| 1333-86-4 | Carbon black  | Systemic effects | Eyes, Respiratory system. |

### LC50 / LD50

This product contains the following components which, in their pure form, have the following toxicity data:

| CAS-No.   | Chemical Name | Route       | Value         | Species |
|-----------|---------------|-------------|---------------|---------|
| 1333-86-4 | Carbon black  | Oral LD50   | >15,400 mg/kg | rat     |
|           |               | Dermal LD50 | > 3 gm/kg     | rabbit  |

### Additional Health Hazard Information:

Carbon black 1333-86-4 Carcinogenicity: Many inhalation toxicologists believe that the tumor response observed in the referenced rat studies is species specific and does not correlate to human exposure. However, the IARC evaluation in Monograph Volume 65, issued in April 1996 concluded that, "There is sufficient evidence in experimental animals for the carcinogenicity of carbon black". Based on this evaluation, along with their evaluation of inadequate evidence of carcinogenicity in humans, IARC's overall evaluation is that "Carbon Black is possibly carcinogenic to humans (Group 2B). The IARC 2B listing only pertains to airborne, unbound carbon black particles of respirable size. Carbon Black has not been listed as a carcinogen by the National Toxicology Program (NTP) or the Occupational Safety and Health Administration (OSHA). The National Institute of Occupational Safety and Health (NIOSH) criteria document on carbon black recommends that only carbon black with PAH (polynuclear aromatic hydrocarbon) levels greater than 0.1% be considered suspect carcinogens.

|                               | 12. ECOLOGICAL INFORMATION   |
|-------------------------------|--|
| Persistence and degradability | : Not readily biodegradable.   |
| Environmental Toxicity        | : Chemicals are not readily available as they are bound within the polymer matrix. |
| Bioaccumulation Potential     | : Chemicals are not readily available as they are bound within the polymer matrix. |
| Additional advice             | : No data available  |
|                               | 13. DISPOSAL CONSIDERATIONS  |
| Product                       | : Like most thermoplastic plastics the product can be recycled. Where              |
