## PMS 7406C FOR NOMAX TRAY

Version Number 1.0 Revision Date 06/19/2002 Page 1 of 6 Print Date 11/5/2011

## 1. PRODUCT AND COMPANY IDENTIFICATION

#### POLYONE CORPORATION 33587 Walker Road, Avon Lake, OH 44012

NON-EMERGENCY TELEPHONE	:	Product Stewardship (770) 271-5902
Emergency telephone number	:	CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	PMS 7406C FOR NOMAX TRAY
Product code	:	CC10018102
Chemical Name	:	Mixture
CAS-No.	:	Mixture
Product Use	:	Industrial Applications

#### 2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS

Components	CAS-No.	Weight %
Titanium dioxide	13463-67-7	10 - 30

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure.

## POTENTIAL HEALTH EFFECTS

Routes of Exposure:	: Inhalation, Ingestion, Skin contact
Acute exposure	
Inhalation Ingestion Eyes	<ul> <li>Resin particles, like other inert materials, can be mechanically irritating.</li> <li>May be harmful if swallowed.</li> <li>Resin particles, like other inert materials, are mechanically irritating to eyes.</li> </ul>
Skin	: Experience shows no unusual dermatitis hazard from routine handling.
Chronic exposure	: Refer to Section 11 for Toxicological Information.
Medical Conditions Aggravated by Exposure:	: None known.

## MATERIAL SAFETY DATA SHEET

# PMS 7406C FOR NOMAX TRAY

Version Number 1.0 Revision Date 06/19/2002 Page 2 of 6 Print Date 11/5/2011

		4. FIRST AID MEASURES
Inhalation	:	Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. When symptoms persist, or in all cases of doubt, seek medical advice.
Ingestion	:	Do not induce vomiting without medical advice. When symptoms persist, or in all cases of doubt, seek medical advice.
Eyes	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.
Skin	:	Wash off with soap and plenty of water. If skin irritation persists seek medical attention.
		5. FIRE-FIGHTING MEASURES
Flash point	:	Not applicable
Flammable Limits Upper explosion limit Lower explosion limit Autoignition temperature Suitable extinguishing media Special Fire Fighting	::	Not applicable Not applicable Not relevant Carbon dioxide blanket, Water spray, dry powder, foam. Fullface self-contained breathing apparatus (SCBA) used in positive
Procedures Unusual Fire/Explosion Hazards	:	pressure mode should be worn to prevent inhalation of airborne contaminants. None
	6. A	CCIDENTAL RELEASE MEASURES
Personal precautions	:	Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.
Environmental precautions	:	Should not be released into the environment. The product should not be allowed to enter drains, water courses or the soil.
Methods for cleaning up	:	Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal. Refer to Section 13 of this MSDS for proper disposal methods.
		7. HANDLING AND STORAGE
Handling	:	Take measures to prevent the build up of electrostatic charge. Heat only in areas with appropriate exhaust ventilation.
Storage	:	Keep containers dry and tightly closed to avoid moisture absorption

Hazardous decomposition products

: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.

#### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

12. ECOLOGICAL INFORMATION         12. ECOLOGICAL INFORMATION         Persistence and degradability         Environmental Toxicity         Chemicals are not readily available as they are bound within the ma of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the ma of the polymer.         Additional advice       : No data available.         13. DISPOSAL CONSIDERATIONS         Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation	CAS-No.	Chemical Name	Effect	Target Organ			
Persistence and degradability       : Not readily biodegradable.         Environmental Toxicity       : Chemicals are not readily available as they are bound within the ma of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the ma of the polymer.         Additional advice       : No data available. <b>I3. DISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportatio and disposal in accordance with applicable federal, state/provincia and local regulations.         U.S. D.O.T. / CA T.D.G.       : Not regulated for transportation.         Classification (Non-bulk ground)       : Not regulated for transportation.	13463-67-7	Titanium dioxide	Systemic effects	Respiratory system.			
Environmental Toxicity       : Chemicals are not readily available as they are bound within the many of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the many of the polymer.         Additional advice       : No data available. <b>I3. DISPOSAL CONSIDERATIONS</b> Product         Environmental Toxicity         It is most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste mather has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincia and local regulations.         U.S. D.O.T. / CA T.D.G.         U.S. D.O.T. / CA T.D.G.       : Not regulated for transportation.         Classification (Non-bulk ground)       : Not regulated for transportation.		12.
