## SAFETY DATA SHEET

### 8804 LIGHT GRAY

| Section 1. Identification  |        |  |
|--|--------|--|
| GHS product identifier<br>Chemical name<br>CAS number<br>Other means of identification<br>Product type | :      | 8804 LIGHT GRAY<br>Mixture<br>Mixture<br>CC10061159<br>solid   |
|  | tance: | e or mixture and uses advised against<br>Industrial applications. Plastics.  |
| Supplier's details   | :      | POLYONE CORPORATION<br>33587 Walker Road, Avon Lake, OH 44012  |
| Emergency telephone number<br>(with hours of operation)  | :      | 1 (440) 930-1000 or 1 (866) POLYONE<br>CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or<br>accident). |

## Section 2. Hazards identification

This mixture has not been evaluated as a whole for health effects. All ingredients are bound in a PVC polymer matrix and potential for hazardous exposure as shipped is minimal. PVC resin is manufactured from Vinyl Chloride Monomer (VCM). PVC resin manufacturers take special efforts to strip residual VCM from their resins. Residual VCM in the resin is typically below 8.5 ppm. However, VCM is a known carcinogen. The end-user (fabricator) should take necessary precautions (mechanical ventilation, local exhaust, respiratory protection, etc.) to protect employees from exposure to any vapors or dusts that may be released during heating or fabrication. See Sections 8 and 11 for special precautions.After handling, always wash hands thoroughly with soap and water.

| OSHA/HCS status                            | : | While this material is not considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200), this SDS contains<br>valuable information critical to the safe handling and proper use of the<br>product. This SDS should be retained and available for employees and<br>other users of this product. |
|--|---|--|
| Classification of the substance or mixture | : | Not classified.  |

### GHS label elements

## 8804 LIGHT GRAY

Version Number 1.6 Revision Date 04/25/2019 <u>PolyOne</u>

Page 2 of 17

Print Date 04/26/2019

| Signal word<br>Hazard statements | : | No signal word.<br>No known significant effects or critical hazards. |
|----------------------------------|---|--|
| Precautionary statements         |   |  |
| General                          | : | Not applicable.  |
| Prevention                       | : | Not applicable.  |
| Response                         | : | Not applicable.  |
| Storage                          | : | Not applicable.  |
| Disposal                         | : | Not applicable.  |
| Supplemental label elements      | : | None known.  |
| Hazards not otherwise classified | : | None known.  |

## Section 3. Composition/information on ingredients

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | CC10061159 |

### CAS number/other identifiers

| Ingredient name  | %       | CAS number |
|--|---------|------------|
| Titanium dioxide   | 25 - 50 | 13463-67-7 |
| Diundecyl phthalate  | 5 - 10  | 3648-20-2  |
| 1,2-Benzenedicarboxylic acid, di-C8-10-branched alkyl esters,<br>C9-rich | 5 - 10  | 68515-48-0 |
| Carbon black   | 0 - 0.3 | 1333-86-4  |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## 8804 LIGHT GRAY

Version Number 1.6 Revision Date 04/25/2019

## Section 4. First aid measures

### **Description of necessary first aid measures**

| Eye contact  | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|---|
| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| Ingestion    | : | Wash out mouth with water. Remove victim to fresh air and keep at<br>rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities<br>of water to drink. Do not induce vomiting unless directed to do so by<br>medical personnel. Get medical attention if symptoms occur. |

### Most important symptoms/effects, acute and delayed

#### **Potential acute health effects**

| Eye contact  | : | No known significant effects or critical hazards. |
|--------------|---|---|
| Inhalation   | : | No known significant effects or critical hazards. |
| Skin contact | : | No known significant effects or critical hazards. |
| Ingestion    | : | No known significant effects or critical hazards. |

### **Over-exposure signs/symptoms**

| Eye contact  | : | No specific data. |
|--------------|---|-------------------|
| Inhalation   | : | No specific data. |
| Skin contact | : | No specific data. |
| Ingestion    | : | No specific data. |

### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician<br>Specific treatments | :<br>: | Treat symptomatically. Contact poison treatment specialist<br>immediately if large quantities have been ingested or inhaled.<br>No specific treatment. |
|---|--------|--|
| Protection of first-aiders                | :      | No action shall be taken involving any personal risk or without suitable training.   |

See toxicological information (Section 11)

## **Section 5. Firefighting measures**

### **Extinguishing media**

| Suitable extinguishing media<br>Unsuitable extinguishing media | : | In case of fire, use water spray (fog), foam, dry chemical or $\rm CO_2$ .<br>None known.   |
|--|---|---|
| Specific hazards arising from the chemical                     | : | No specific fire or explosion hazard.   |
| Hazardous thermal<br>decomposition products                    | : | May emit Hydrogen Chloride (HCl).<br>Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides              |
| Special protective actions for fire-<br>fighters               | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters                 | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

## Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel<br>For emergency responders | :     | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Put on appropriate personal protective equipment.<br>If specialized clothing is required to deal with the spillage, take note<br>of any information in Section 8 on suitable and unsuitable materials.<br>See also the information in "For non-emergency personnel". |
|---|-------|---|
| Environmental precautions                               | :     | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for containme                     | ent a | nd cleaning up  |
| Small spill   | :     | Move containers from spill area. Vacuum or sweep up material and  |

Large spill

place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

| Protective measures<br>Advice on general occupational<br>hygiene | : | Put on appropriate personal protective equipment (see Section 8).<br>Eating, drinking and smoking should be prohibited in areas where this<br>material is handled, stored and processed. Workers should wash hands<br>and face before eating, drinking and smoking. Remove contaminated<br>clothing and protective equipment before entering eating areas. See<br>also Section 8 for additional information on hygiene measures.   |
|--|---|--|
| Conditions for safe storage,<br>including any incompatibilities  | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept<br>upright to prevent leakage. Do not store in unlabeled containers. Use<br>appropriate containment to avoid environmental contamination. |

## Section 8. Exposure controls/personal protection

:

### **Control parameters**

### **Occupational exposure limits**

| Ingredient name | Exposure limits  |  |

|   | ACGIH TLV (2010-12-06)<br>TWA 3 mg/m3 Form: Inhalable fraction   |
|---|--|
| Diundecyl phthalate   | None.  |
| 1,2-Benzenedicarboxylic acid, di-C8-10-<br>branched alkyl esters, C9-rich | None.  |
| Titanium dioxide  | OSHA PEL 1989 (1989-03-01)<br>TWA 10 mg/m3 Form: Total dust<br>OSHA PEL (1993-06-30)<br>TWA 15 mg/m3 Form: Total dust<br>ACGIH TLV (1996-05-18)<br>TWA 10 mg/m3  |
| Appropriate engineering controls  | Good general ventilation should be sufficient to control worker  |
| Environmental exposure controls   | <ul> <li>exposure to airborne contaminants.</li> <li>Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.</li> </ul>   |
| Individual protection measures  |  |
|   | <ul> <li>Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.</li> <li>Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.</li> </ul> |
| Skin protection   |  |
| Hand protection   | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.  |
| Body protection   | <ul> <li>Personal protective equipment for the body should be selected based<br/>on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Other skin protection   | Appropriate footwear and any additional skin protection measures   |

should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection** 

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 13. Disposal considerations

**Disposal methods** 

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products

## 8804 LIGHT GRAY

| Version I | Num  | ber | 1.6       |
|-----------|------|-----|-----------|
| Revision  | Date | e 0 | 4/25/2019 |

should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## **Section 16. Other information**

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual. History
