#### 2. COMPOSITION/INFORMATION ON REGULATED INGREDIENTS

| Components        | CAS-No.    | Weight % |
|-------------------|------------|----------|
| Calcium carbonate | 1317-65-3  | 5 - 10   |
| Titanium dioxide  | 13463-67-7 | 30 - 60  |

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure.

#### POTENTIAL HEALTH EFFECTS

| <b>Routes of Exposure:</b>                    | : Inhalation, Ingestion, Skin contact                                                                                                                                                                                             |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute exposure                                |                                                                                                                                                                                                                                   |
| Inhalation<br>Ingestion<br>Eyes               | <ul> <li>Resin particles, like other inert materials, can be mechanically irritating.</li> <li>May be harmful if swallowed.</li> <li>Resin particles, like other inert materials, are mechanically irritating to eyes.</li> </ul> |
| Skin<br>Chronic exposure                      | <ul> <li>Experience shows no unusual dermatitis hazard from routine handling.</li> <li>Refer to Section 11 for Toxicological Information.</li> </ul>                                                                              |
| Medical Conditions<br>Aggravated by Exposure: | : None known.                                                                                                                                                                                                                     |

## MATERIAL SAFETY DATA SHEET **CREAM BEIGE 7401C**

Version Number 1.0 Revision Date 04/15/2005 Page 4 of 6 Print Date 11/17/2011

olyOne

| Incompatible Materials           | : | Incompatible with strong acids and oxidizing agents.                                                                         |
|----------------------------------|---|------------------------------------------------------------------------------------------------------------------------------|
| Hazardous decomposition products | : | Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible. |

#### **11. TOXICOLOGICAL INFORMATION**

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

**Toxicity Overview** 

This product contains the following components which in their pure form have the following characteristics:

| CAS-No.    | Chemical Name     | Effect           | Target Organ                    |
|------------|-------------------|------------------|---------------------------------|
| 1317-65-3  | Calcium carbonate | Irritant         | Eyes, Skin.                     |
|            |                   | Systemic effects | Eyes, Skin, Respiratory system. |
| 13463-67-7 | Titanium dioxide  | Systemic effects | Respiratory system.             |

|                               | 12. ECOLOGICAL INFORMATION                                                                                                                                                                                                                                                                                                            |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Persistence and degradability | : Not readily biodegradable.                                                                                                                                                                                                                                                                                                          |
| Environmental Toxicity        | : Chemicals are not readily available as they are bound within the polymer matrix.                                                                                                                                                                                                                                                    |
| Bioaccumulation Potential     | : Chemicals are not readily available as they are bound within the polymer matrix.                                                                                                                                                                                                                                                    |
| Additional advice             | : No data available                                                                                                                                                                                                                                                                                                                   |
|                               | 13. DISPOSAL CONSIDERATIONS                                                                                                                                                                                                                                                                                                           |
| Product                       | : Like most thermoplastic plastics the product can be recycled. Where possible recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations. |
| Contaminated packaging        | : Recycling is preferred when possible. The generator of waste materia has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.                                                                                             |
|                               | 14. TRANSPORT INFORMATION                                                                                                                                                                                                                                                                                                             |
|                               |                                                                                                                                                                                                                                                                                                                                       |
