| Product name                     | : | ES3 / LT. SHALE   |
| Product code                     | : | CC10121634  |
| Chemical Name                    | : | Mixture   |
| CAS-No.                          | : | Mixture   |
| Product Use                      | : | Industrial Applications   |

### 2. COMPOSITION/INFORMATION ON REGULATED INGREDIENTS

| Components                                   | CAS-No.    | Weight % |
|--|------------|----------|
| Decanedioic acid, bis(2,2,6,6-tetramethyl-4- | 52829-07-9 | 5 - 10   |
| piperidinyl) ester                           | 1222.06.4  | 0.1 1    |
| Carbon black                                 | 1333-86-4  | 0.1 - 1  |
| Iron oxide                                   | 1309-37-1  | 0.1 - 1  |
| Rutile, antimony chromium buff               | 68186-90-3 | 1 - 5    |
| Titanium dioxide                             | 13463-67-7 | 10 - 30  |

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure.

#### POTENTIAL HEALTH EFFECTS

| Routes of Exposure: | : Inhalation, Ingestion, Skin contact   |
|---------------------|---|
| Acute exposure      |   |
| Inhalation          | : Resin particles, like other inert materials, can be mechanically irritating.      |
| Ingestion           | : May be harmful if swallowed.  |
| Eyes                | : Resin particles, like other inert materials, are mechanically irritating to eyes. |
| Skin                | : Experience shows no unusual dermatitis hazard from routine handling.              |

PolyOne.

# MATERIAL SAFETY DATA SHEET **ES3 / LT. SHALE**

Version Number 1.1 Revision Date 05/07/2009 Page 2 of 8 Print Date 1/7/2012

| Medical Conditions           | :    | None known.   |
|------------------------------|------|---|
| Aggravated by Exposure:      |      |   |
|                              |      | 4. FIRST AID MEASURES   |
| Inhalation                   | :    | Move to fresh air in case of accidental inhalation of fumes from<br>overheating or combustion. When symptoms persist or in all cases of<br>doubt seek medical advice.               |
| Ingestion                    | :    | Do not induce vomiting without medical advice. When symptoms persist or in all cases of doubt seek medical advice.  |
| Eyes                         | :    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.  |
| Skin                         | :    | Wash off with soap and plenty of water. If skin irritation persists seek medical attention.   |
|                              |      | 5. FIRE-FIGHTING MEASURES   |
| Flash point                  | :    | Not applicable  |
| Flammable Limits             |      |   |
| Upper explosion limit        | :    | Not applicable  |
| Lower explosion limit        | :    | Not applicable  |
| Autoignition temperature     | :    | Not applicable  |
| Suitable extinguishing media | :    | Carbon dioxide blanket, Water spray, Dry powder, Foam.  |
| Special Fire Fighting        | •    | Fullface self-contained breathing apparatus (SCBA) used in positive   |
| Procedures                   |      | pressure mode should be worn to prevent inhalation of airborne  |
|                              |      | contaminants.   |
| Unusual Fire/Explosion       | :    | Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen  |
| Hazards                      |      | (NOx), other hazardous materials, and smoke are all possible.   |
|                              | 6. A | CCIDENTAL RELEASE MEASURES  |
| Personal precautions         | :    | Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.  |
| Environmental precautions    | :    | Should not be released into the environment. The product should not be allowed to enter drains, water courses or the soil.  |
| Methods for cleaning up      | :    | Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal. Refer to Section 13 of this MSDS for proper disposal methods. |

PolyOne.

## MATERIAL SAFETY DATA SHEET ES3/LT. SHALE

| Handling                          | :    | Take measures to prevent the build up of electrostatic charge. Heat only in areas with appropriate exhaust ventilation.    |
|-----------------------------------|------|--|
| Storage                           | :    | Keep containers dry and tightly closed to avoid moisture absorption<br>and contamination. Keep in a dry, cool place.       |
| 8. EX                             | POSU | RE CONTROLS/PERSONAL PROTECTION  |
| Respiratory protection            | :    | No personal respiratory protective equipment normally required.  |
| Eye/Face Protection               | :    | Safety glasses with side-shields   |
| Hand protection                   | :    | Protective gloves  |
| Skin and body protection          | :    | Long sleeved clothing  |
| Additional Protective<br>Measures | :    | Safety shoes   |
| General Hygiene<br>Considerations | :    | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |
| Engineering measures              | :    | Heat only in areas with appropriate exhaust ventilation. Provide appropriate exhaust ventilation at machinery.             |

PolyOne.

### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

#### Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

| CAS-No.    | Chemical Name              | Effect           | Target Organ              |
|------------|----------------------------|------------------|---------------------------|
| 52829-07-9 | Decanedioic acid,          | Irritant         | Eyes.                     |
|            | bis(2,2,6,6-tetramethyl-4- |                  |                           |
|            | piperidinyl) ester         |                  |                           |
| 1333-86-4  | Carbon black               | Systemic effects | Eyes, Respiratory system. |
| 1309-37-1  | Iron oxide                 | Systemic effects | Respiratory system.       |
| 68186-90-3 | Rutile, antimony           | Irritant         | Eyes, Skin, Respiratory   |
|            | chromium buff              |                  | system.                   |
| 13463-67-7 | Titanium dioxide           | Systemic effects | Respiratory system.       |

#### LC50 / LD50

This product contains the following components which, in their pure form, have the following toxicity data:

| CAS-No.    | Chemical Name   | Route                    | Value                        | Species       |
|------------|---|--------------------------|------------------------------|---------------|
| 52829-07-9 | Decanedioic acid,<br>bis(2,2,6,6-tetramethyl-4-<br>piperidinyl) ester | Oral LD50<br>Dermal LD50 | 3,700 mg/kg<br>> 3,100 mg/kg | rat<br>rabbit |
| 1333-86-4  | Carbon black  | Oral LD50<br>Dermal LD50 | > 15,400 mg/kg<br>> 3 gm/kg  | rat<br>rabbit |

Carcinogenicity

This product contains the following components which, in their pure form, have the following carcinogenicity data:

## PolyOne.

Page 5 of 8 Print Date 1/7/2012

PolvOne

## MATERIAL SAFETY DATA SHEET **ES3 / LT. SHALE**

Version Number 1.1 Revision Date 05/07/2009 Page 6 of 8 Print Date 1/7/2012

| CAS-No.    | Chemical Name    | OSHA | IARC | NTP |
|------------|------------------|------|------|-----|
| 1333-86-4  | Carbon black     | no   | 2B   | no  |
| 13463-67-7 | Titanium dioxide | no   | 2B   | no  |

IARC Carcinogen Classifications:

1 - The component is carcinogenic to humans.

2A - The component is probably carcinogenic to humans.

2B - The component is possibly carcinogenic to humans.

NTP Carcinogen Classifications:

1 - The component is known to be a human carcinogen.

2 - The component is reasonably anticipated to be a human carcinogen.

#### Additional Health Hazard Information:

Carbon black 1333-86-4 Carcinogenicity: Many inhalation toxicologists believe that the tumor response observed in the referenced rat studies is species specific and does not correlate to human exposure. However, the IARC evaluation in Monograph Volume 65, issued in April 1996 concluded that, "There is sufficient evidence in experimental animals for the carcinogenicity of carbon black". Based on this evaluation, along with their evaluation of inadequate evidence of carcinogenicity in humans, IARC's overall evaluation is that "Carbon Black is possibly carcinogenic to humans (Group 2B). The IARC 2B listing only pertains to airborne, unbound carbon black particles of respirable size. Carbon Black has not been listed as a carcinogen by the National Toxicology Program (NTP) or the Occupational Safety and Health Administration (OSHA). The National Institute of Occupational Safety and Health (NIOSH) criteria document on carbon black recommends that only carbon black with PAH (polynuclear aromatic hydrocarbon) levels greater than 0.1% be considered suspect carcinogens.

#### **12. ECOLOGICAL INFORMATION**

| Persistence and degradability | : Not readily biodegradable.  |
|-------------------------------|---|
| Environmental Toxicity        | : Chemicals are not readily available as they are bound within the polymer matrix.  |
| Bioaccumulation Potential     | : Chemicals are not readily available as they are bound within the polymer matrix.  |
| Additional advice             | : No data available   |
|                               | 13. DISPOSAL CONSIDERATIONS   |
| Product                       | : Like most thermoplastic plastics the product can be recycled. Where possible recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations. |
| Contaminated packaging        | : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal,  |
