# SAFETY DATA SHEET

### 030AQ2006 AQUA UV

| Section 1. Identification            |       |   |
|--------------------------------------|-------|---|
|                                      |       |   |
| GHS product identifier               | :     | 030AQ2006 AQUA UV   |
| Chemical name                        | :     | Mixture   |
| CAS number                           | :     | Mixture   |
| Other means of identification        | :     | CC10141218  |
| Product type                         | :     | solid   |
|                                      |       |   |
| Relevant identified uses of the subs | tance | e or mixture and uses advised against                             |
| Product use                          | :     | Industrial applications. Plastics.                                |
|                                      |       |   |
| Supplier's details                   | :     | POLYONE CORPORATION   |
|                                      |       | 33587 Walker Road, Avon Lake, OH 44012                            |
|                                      |       |   |
|                                      |       | 1 (440) 930-1000 or 1 (866) POLYONE                               |
|                                      |       |   |
| Emergency telephone number           | :     | CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or |
| (with hours of operation)            |       | accident).  |

## Section 2. Hazards identification

This mixture has not been evaluated as a whole for health effects. All ingredients are bound in a PVC polymer matrix and potential for hazardous exposure as shipped is minimal. PVC resin is manufactured from Vinyl Chloride Monomer (VCM). PVC resin manufacturers take special efforts to strip residual VCM from their resins. Residual VCM in the resin is typically below 8.5 ppm. However, VCM is a known carcinogen. The end-user (fabricator) should take necessary precautions (mechanical ventilation, local exhaust, respiratory protection, etc.) to protect employees from exposure to any vapors or dusts that may be released during heating or fabrication. See Sections 8 and 11 for special precautions.After handling, always wash hands thoroughly with soap and water.

| OSHA/HCS status                            | : | While this material is not considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200), this SDS contains<br>valuable information critical to the safe handling and proper use of the<br>product. This SDS should be retained and available for employees and<br>other users of this product. |
|--|---|--|
| Classification of the substance or mixture | : | Not classified.  |

## Section 3. Composition/information on ingredients

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | CC10141218 |

#### CAS number/other identifiers

| Ingredient name   | %       | CAS number |
|---|---------|------------|
| 1,2-Benzenedicarboxylic acid, di-C8-10-branched alkyl esters, C9-rich | 10 - 25 | 68515-48-0 |
|   |         |            |
| Titanium dioxide  | 10 - 25 | 13463-67-7 |
| 2-Hydroxy-4-n-octoxybenzophenone                                      | 5 - 10  | 1843-05-6  |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## 030AQ2006 AQUA UV

Version Number 1.3 Revision Date 04/06/2018

### Page 3 of 16 Print Date 04/07/2018

#### **Description of necessary first aid measures**

| Eye contact  | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|---|
| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| Ingestion    | : | Wash out mouth with water. Remove victim to fresh air and keep at<br>rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities<br>of water to drink. Do not induce vomiting unless directed to do so by<br>medical personnel. Get medical attention if symptoms occur. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects   |             |  |
|--|-------------|--|
| Eye contact<br>Inhalation<br>Skin contact<br>Ingestion<br>Over-exposure signs/symptoms | :<br>:<br>: | No known significant effects or critical hazards.<br>No known significant effects or critical hazards.<br>No known significant effects or critical hazards.<br>No known significant effects or critical hazards. |
| Eye contact<br>Inhalation<br>Skin contact<br>Ingestion                                 | :<br>:<br>: | No specific data.<br>No specific data.<br>No specific data.<br>No specific data.   |
| Indication of immediate medical att  | entio       | n and special treatment needed, if necessary   |
| Notes to physician<br>Specific treatments  | :           | Treat symptomatically. Contact poison treatment specialist<br>immediately if large quantities have been ingested or inhaled.<br>No specific treatment.   |
| Protection of first-aiders   | :           | No action shall be taken involving any personal risk or without suitable training.   |

See toxicological information (Section 11)

## **Section 5. Firefighting measures**

## 030AQ2006 AQUA UV

Version Number 1.3 Revision Date 04/06/2018

| Page 4 of 16          |
|-----------------------|
| Print Date 04/07/2018 |

#### **Extinguishing media**

| Suitable extinguishing media<br>Unsuitable extinguishing media | : | In case of fire, use water spray (fog), foam, dry chemical or $CO_2$ .<br>None known.   |
|--|---|---|
| Specific hazards arising from the chemical                     | : | No specific fire or explosion hazard.   |
| Hazardous thermal  | : | May emit Hydrogen Chloride (HCl).   |
| decomposition products   |   | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-<br>fighters               | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters                 | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

## Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel<br>For emergency responders | :     | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Put on appropriate personal protective equipment.<br>If specialized clothing is required to deal with the spillage, take note<br>of any information in Section 8 on suitable and unsuitable materials.<br>See also the information in "For non-emergency personnel". |  |
|---|-------|---|--|
| Environmental precautions                               | :     | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |  |
| Methods and materials for containme                     | ent a | nd cleaning up  |  |
| Small spill   | :     | Move containers from spill area. Vacuum or sweep up material and<br>place in a designated, labeled waste container. Dispose of via a<br>licensed waste disposal contractor.   |  |
| Large spill   | :     | Move containers from spill area. Prevent entry into sewers, water<br>courses, basements or confined areas. Vacuum or sweep up material  |  |
|   | 4/16  |   |  |

## 030AQ2006 AQUA UV

Version Number 1.3 Revision Date 04/06/2018 Page 5 of 16 Print Date 04/07/2018

and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures<br>Advice on general occupational<br>hygiene | : | Put on appropriate personal protective equipment (see Section 8).<br>Eating, drinking and smoking should be prohibited in areas where this<br>material is handled, stored and processed. Workers should wash hands<br>and face before eating, drinking and smoking. Remove contaminated<br>clothing and protective equipment before entering eating areas. See<br>also Section 8 for additional information on hygiene measures.   |
|--|---|--|
| Conditions for safe storage,<br>including any incompatibilities  | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept<br>upright to prevent leakage. Do not store in unlabeled containers. Use<br>appropriate containment to avoid environmental contamination. |

## Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                  | Exposure limits   |
|----------------------------------|---|
| 2-Hydroxy-4-n-octoxybenzophenone |   |
|                                  |   |
|                                  |   |
| Titanium dioxide                 | OSHA PEL 1989 (1989-03-01)                                  |
|                                  | PEL: Permissible Exposure Level 10 mg/m3 Form: Total dust   |
|                                  | OSHA PEL (1993-06-30)                                       |
|                                  | PEL: Permissible Exposure Level 15 mg/m3 Form: Total dust   |
|                                  | NIOSH REL (1994-06-01)                                      |
|                                  | ACGIH TLV (1996-05-18)                                      |
|                                  | TLV-TWA: Threshold Limit Value - Time weighted average PEL: |
|                                  | Permissible Exposure Level 10 mg/m3                         |
|                                  |   |

#### **Bioaccumulative potential**

| Product/ingredient name              | LogPow | BCF   | Potential |
|--------------------------------------|--------|-------|-----------|
| 1,2-Benzenedicarboxylic acid, di-C8- | 8.8    | 3.00  | low       |
| 10-branched alkyl esters, C9-rich    |        |       |           |
| Methanone, [2-hydroxy-4-             | 6      | 99.00 | low       |
| (octyloxy)phenyl]phenyl-             |        |       |           |

#### Mobility in soil

| Soil/water partition coefficient | : | Not available.                                    |
|----------------------------------|---|---|
| (KOC)                            |   |   |
| Other adverse effects            | : | No known significant effects or critical hazards. |

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
