## MATERIAL SAFETY DATA SHEET **WALNUT**

Version Number 1.0 Revision Date 11/01/2012

Product Use

Page 1 of 8 Print Date 11/1/2012

#### 1. PRODUCT AND COMPANY IDENTIFICATION

#### POLYONE CORPORATION 33587 Walker Road, Avon Lake, OH 44012

Telephone Emergency telephone number	:	1 (440) 930-1000 or 1 (866) POLYONE CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	WALNUT
Product code	:	CC10171662
Chemical Name	:	Mixture
CAS-No.	:	Mixture

: Industrial Applications

### 2. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS-No.	Weight percent
1,3,5-Triazine-2,4,6-triamine,N,N <sup>'''</sup> -1,2- ethanediylbis[N-[3-[[4,6-bis[butyl(1,2,2,6,6- pentamethyl-4-piperidinyl)amino]-1,3,5- triazin	106990-43-6	1 - 5
Phenol, 2-(2H-benzotriazol-2-yl)-4,6- bis(1,1-dimethylpropyl)-	25973-55-1	1 - 5
Ethyl benzene	100-41-4	0.1 - 1
Xylenes (o-, m-, p- isomers)	1330-20-7	1 - 5
Iron oxide	1309-37-1	5 - 10
Titanium dioxide	13463-67-7	10 - 30

### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure.

### POTENTIAL HEALTH EFFECTS

**Routes of Exposure:** 

: Inhalation, Ingestion, Skin contact

Acute exposure

# MATERIAL SAFETY DATA SHEET **WALNUT**

sin particles, like other inert materials, can be mechanically itating. ay be harmful if swallowed. sin particles, like other inert materials, are mechanically irritating to es. perience shows no unusual dermatitis hazard from routine handling. fer to Section 11 for Toxicological Information. one known. <b>4. FIRST AID MEASURES</b> love to fresh air in case of accidental inhalation of fumes from verheating or combustion. When symptoms persist or in all cases of bubt seek medical advice. o not induce vomiting without medical advice. When symptoms ersist or in all cases of doubt seek medical advice. inse immediately with plenty of water, also under the eyelids, for at ast 15 minutes. If eye irritation persists, seek medical attention. Vash off with soap and plenty of water. If skin irritation persists per the seek medical attention.

FIREFIGHTING MEASURES
ot applicable
ot applicable
ot applicable
ot applicable
arbon dioxide blanket, Water spray, Dry powder, Foam.
ullface self-contained breathing apparatus (SCBA) used in positive ressure mode should be worn to prevent inhalation of airborne
ontaminants. arbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen
NOx), other hazardous materials, and smoke are all possible.
IDENTAL RELEASE MEASURES
Vear appropriate personal protection during cleanup, such as npervious gloves, boots and coveralls.

Methods for cleaning up	<ul> <li>be allowed to enter drains, water courses or the soil.</li> <li>Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal.</li> </ul>
	7. HANDLING AND STORAGE
Handling	: Take measures to prevent the build up of electrostatic charge. Heat only in areas with appropriate exhaust ventilation.
Storage	: Keep containers dry and tightly closed to avoid moisture absorption and contamination. Keep in a dry, cool place.
8. EX	POSURE CONTROLS/PERSONAL PROTECTION
Respiratory protection	: No personal respiratory protective equipment normally required.
Eye/Face Protection	: Safety glasses with side-shields
Hand protection	: Protective gloves
Skin and body protection	: Long sleeved clothing
Additional Protective Measures	: Safety shoes
General Hygiene Considerations	: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
Engineering measures	: Heat only in areas with appropriate exhaust ventilation. Provide appropriate exhaust ventilation at machinery.
Exposure limit(s)	

<u>PolyOne</u>

	10. STABILITY AN	DREACTIVITY	

Stability	:	The product is stable if stored and handled as prescribed.
Hazardous Polymerization	:	Will not occur.
Conditions to avoid	:	Keep away from oxidizing agents and open flame. To avoid thermal decomposition, do not overheat.
Incompatible Materials	:	Incompatible with strong acids and oxidizing agents.
Hazardous decomposition products	:	Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.

#### **11. TOXICOLOGICAL INFORMATION**

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

**Toxicity Overview** 

This product contains the following components which in their pure form have the following characteristics:

CAS-No.	Chemical Name	Effect	Target Organ
25973-55-1	Phenol, 2-(2H- benzotriazol-2-yl)-4,6- bis(1,1-dimethylpropyl)-	Systemic effects	Kidney, Liver, reproductive system.
100-41-4	Ethyl benzene	Irritant	Eyes, Skin, Respiratory system.
		Systemic effects	Eyes, Skin, Respiratory system, central nervous system (CNS).
1330-20-7	Xylenes (o-, m-, p- isomers)	Irritant	Eyes, Respiratory system.
		Systemic effects	Eyes, Skin, Respiratory system, blood and blood forming system, Liver, Kidney, central nervous system (CNS), digestive system.
1309-37-1	Iron oxide	Systemic effects	Respiratory system.
13463-67-7	Titanium dioxide	Systemic effects	Respiratory system.

#### LC50 / LD50

This product contains the following components which, in their pure form, have the following toxicity data:

CAS-No.	Chemical Name	Route	Value	Species
100-41-4	Ethyl benzene	Oral LD50	3,500 mg/kg	rat
		Dermal LD50	17800 ul/kg	rabbit
1330-20-7	Xylenes (o-, m-, p-	LC50	5000 ppm/4H	rat
	isomers)	LC50		rat
		Oral	4,300	ratrat
		LD50Oral	mg/kg4,300	rabbit
		LD50	mg/kg	rabbit
		Dermal LD50	> 1,700 mg/kg	
		Dermal LD50	43 g/kg	

Carcinogenicity

This product contains the following components which, in their pure form, have the following carcinogenicity data:

CAS-No.	Chemical Name	OSHA	IARC	NTP
100-41-4	Ethyl benzene	no	2B	no
13463-67-7	Titanium dioxide	no	2B	no

IARC Carcinogen Classifications:

1 - The component is carcinogenic to humans.

2A - The component is probably carcinogenic to humans.

2B - The component is possibly carcinogenic to humans.

NTP Carcinogen Classifications:

1 - The component is known to be a human carcinogen.

2 - The component is reasonably anticipated to be a human carcinogen.

	12. ECOLOGICAL INFORMATION
Persistence and degradability	: Not readily biodegradable.
Environmental Toxicity	: Chemicals are not readily available as they are bound within the polymer matrix.
Bioaccumulation Potential	: Chemicals are not readily available as they are bound within the polymer matrix.
Additional advice	: no data available
	13. DISPOSAL CONSIDERATIONS
Product	: Like most thermoplastic plastics the product can be recycled. Where possible recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.
