### 1. PRODUCT AND COMPANY IDENTIFICATION

### POLYONE CORPORATION 33587 Walker Road, Avon Lake, OH 44012

NON-EMERGENCY TELEPHONE	:	Product Stewardship (440)-930-1395
Emergency telephone number	:	CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	X155500491462 (pP 4180-WT01)
Product code	:	EM10003492
Chemical Name	:	Mixture
CAS-No.	:	Mixture
Product Use	:	Industrial Applications

#### 2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS

Components	CAS-No.	Weight %
Titanium dioxide	13463-67-7	1 - 5

### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating or processing. The end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions.

### POTENTIAL HEALTH EFFECTS

<b>Routes of Exposure:</b>	: Inhalation, Ingestion, Skin contact
Acute exposure	
Inhalation Ingestion Eyes	<ul> <li>Resin particles, like other inert materials, can be mechanically irritating.</li> <li>May be harmful if swallowed.</li> <li>Resin particles, like other inert materials, are mechanically irritating to eyes.</li> </ul>
Skin	: Experience shows no unusual dermatitis hazard from routine handling.
Chronic exposure	: Refer to Section 11 for Toxicological Information.
Medical Conditions Aggravated by Exposure:	: None known.

### MATERIAL SAFETY DATA SHEET

# X155500491462 (pP 4180-WT01)

Version Number 1.0 Revision Date 02/24/2003 Page 2 of 6 Print Date 11/10/2011

		4. FIRST AID MEASURES
Inhalation	:	Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. When symptoms persist or in all cases of doubt seek medical advice.
Ingestion	:	Do not induce vomiting without medical advice. When symptoms persist or in all cases of doubt seek medical advice.
Eyes	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.
Skin	:	Wash off with soap and plenty of water. If skin irritation persists seek medical attention.
		5. FIRE-FIGHTING MEASURES
Flash point	:	Not applicable
Flammable Limits		
Upper explosion limit		Not applicable
Lower explosion limit	:	Not applicable
Autoignition temperature	:	Not relevant
Suitable extinguishing media	:	water, dry powder, foam, carbon dioxide (CO2).
Special Fire Fighting Procedures	:	Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne contaminants.
Unusual Fire/Explosion Hazards	:	None
	6. A	CCIDENTAL RELEASE MEASURES
Personal precautions	:	Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.
Environmental precautions	:	Should not be released into the environment. The product should not be allowed to enter drains, water courses or the soil.
Methods for cleaning up	:	Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal. Refer to Section 13 of this MSDS for proper disposal methods.
		7. HANDLING AND STORAGE
Handling	:	Take measures to prevent the build up of electrostatic charge. Heat only in areas with appropriate exhaust ventilation.
Storage	:	Keep containers dry and tightly closed to avoid moisture absorption

products

(NOx), other hazardous materials, and smoke are all possible.

### **11. TOXICOLOGICAL INFORMATION**

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

<u>Toxicity Overview</u> This product contains the following components which in their pure form have the following characteristics:

Environmental Toxicity       : Chemicals are not readily available as they are bound within the main of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the main of the polymer.         Additional advice       : Not applicable <b>I J DISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         U.S. DOT Classification       : Not regulated for transportation.         ICAO/IATA       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.	CAS-No.	S-No. Chemical Name		Effect	Target Organ		
Persistence and degradability       : Not readily biodegradable.         Environmental Toxicity       : Chemicals are not readily available as they are bound within the ma of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the ma of the polymer.         Additional advice       : Not applicable <b>13. DISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         U.S. DOT Classification       : Not regulated for transportation.         U.S. DOT Classification       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.	13463-67-7	Titanium dioxide		Systemic effects	Respiratory system.		
Environmental Toxicity       : Chemicals are not readily available as they are bound within the main of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the main of the polymer.         Additional advice       : Not applicable <b>ISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         U.S. DOT Classification       : Not regulated for transportation.         ICAO/IATA       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.         15. of the polymer.         Bioaccumulation Potential       : Chemicals are not readily available as they are bound within the ma of the polymer.         Additional advice       : Not applicable <b>13. DISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste mater has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         U.S. DOT Classification       : Not regulated for transportation.         ICAO/IATA       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.	Persistence and degrad	lability	: Not readily bi	iodegradable.			
Additional advice       i       Not applicable         III. DISPOSAL CONSIDERATIONS         Product       :       Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       :       Recycling is preferred when possible. The generator of waste mate has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Locat regulations.       :       Not regulated for transportation.         U.S. DOT Classification       :       Not regulated for transportation.         ICAO/IATA       :       Not regulated for transportation.         IMO / IMDG       :       Not regulated for transportation.	Environmental Toxicity		: Chemicals are not readily available as they are bound within the matrix of the polymer.				
II <b>13. DISPOSAL CONSIDERATIONS</b> Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste mate has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations. <b>14. TRANSPORT INFORMATION</b> U.S. DOT Classification       : Not regulated for transportation.         ICAO/IATA       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.	Bioaccumulation Potential		Chemicals are not readily available as they are bound within the matrix of the polymer.				
Product       : Like most thermoplastics the product can be recycled. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste mate has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         Contaminated packaging       : Recycling is preferred when possible. The generator of waste mate has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.         U.S. DOT Classification       : Not regulated for transportation.         ICAO/IATA       : Not regulated for transportation.         IMO / IMDG       : Not regulated for transportation.         15.
