Aggravated by Exposure:

: None known.

4. FIRST AID MEASURES

Inhalation Move to fresh air in case of accidental inhalation of fumes from

overheating or combustion. When symptoms persist or in all cases of

doubt seek medical advice.

Ingestion Do not induce vomiting without medical advice. Seek medical

attention if necessary.

Eyes Rinse immediately with plenty of water for at least 15 minutes. If eye

irritation persists, seek medical attention.

Skin Wash off with soap and plenty of water. If skin irritation persists seek

medical attention.

**5. FIRE-FIGHTING MEASURES** 

Flash point Between 100 °F and 200 °F

Flammable Limits

Upper explosion limit No data available. Lower explosion limit No data available. Autoignition temperature No data available.

Suitable extinguishing media Carbon dioxide blanket, dry powder, foam, water spray.

Special Fire Fighting

Procedures

: Fullface self-contained breathing apparatus (SCBA) used in positive

pressure mode should be worn to prevent inhalation of airborne

contaminants.

Unusual Fire/Explosion

Hazards

May emit Hydrogen Chloride (HCl) or Carbon Monoxide (CO) under

fire conditions.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions Wear appropriate personal protection during cleanup, such as

impervious gloves, boots and coveralls.

Environmental precautions Should not be released into the environment. The product should not

be allowed to enter drains, water courses or the soil.

Contain and collect spillage with non-combustible absorbent material, Methods for cleaning up

(e.g. sand, earth, diatomaceus earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Package all material in appropriate container for disposal.

Refer to Section 13 of this MSDS for proper disposal methods.

Handling : Combustible liquid. Keep away from flames, hot surfaces, and sources

of ignition. Use only in an area with appropriate ventilation. Processing fume condensates may contain combustible or toxic residue. Periodically clean hoods, ducts, and other surfaces to

minimize accumulation of these materials.

Storage : Store below 140 deg F (60 deg C). Keep containers dry and tightly

closed to avoid moisture absorption and contamination.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory protection : Under normal handling conditions a respirator may not be required.

Airborne contaminant levels should be maintained below the

occupational exposure guidelines.

Eye/Face Protection : Safety glasses with side-shields.

Hand protection : Protective gloves.

Skin and body protection : Long sleeved clothing.

Additional Protective

Measures

Safety shoes.

General Hygiene Considerations : Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. Ensure adequate

ventilation, especially in confined areas.

Engineering measures : Provide general and/or local exhaust ventilation to control airborne

contaminant levels below the exposure guidelines.
