## MATERIAL SAFETY DATA SHEET **WB-202**

Version Number 1.0 Revision Date 12/13/2006

Page 1 of 6 Print Date 11/25/2011

#### 1. PRODUCT AND COMPANY IDENTIFICATION

#### POLYONE CORPORATION 8155 Cobb Center Drive, Kennesaw, GA 30152

Telephone Emergency telephone number	:	Product Stewardship (770) 590-3500 x.3563 CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	WB-202
Product code	:	FO20015537
Chemical Name	:	Mixture
CAS-No.	:	Mixture
Product Use	:	Industrial Applications

### 2. COMPOSITION/INFORMATION ON REGULATED INGREDIENTS

There are no known hazardous components above regulatory thresholds in this product.

### **3. HAZARDS IDENTIFICATION**

### **EMERGENCY OVERVIEW**

This product has not been evaluated as a whole for health effects. Information provided on the health effects of this product is based on individual components. In addition, some vapors or contaminants may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions.

#### POTENTIAL HEALTH EFFECTS

Routes of Exposure:	: Skin contact, Inhalation, Ingestion			
Acute exposure				
Inhalation	: Inhalation of airborne droplets may cause irritation of the respiratory tract.			
Ingestion	: May be harmful if swallowed.			
Eyes	: May cause eye/skin irritation.			
Skin				
Chronic exposure	: Refer to Section 11 for Toxicological Information.			
Medical Conditions Aggravated by Exposure:	: None known.			
4. FIRST AID MEASURES				

# MATERIAL SAFETY DATA SHEET **WB-202**

ion Number 1.0 sion Date 12/13/2006	Page 2 Print Date 11/25/2			
Inhalation	: Move to fresh air in case of accidental inhalation of vapors or fumes from overheating or combustion. When symptoms persist or in all cases of doubt seek medical advice.			
Ingestion	: Never give anything by mouth to an unconscious person. Seek medical attention if necessary. Do not induce vomiting without medical advice.			
Eyes	: Rinse immediately with plenty of water for at least 15 minutes. If ey irritation persists, seek medical attention.			
Skin	: Wash off with soap and plenty of water. If skin irritation persists see medical attention.			
	5. FIRE-FIGHTING MEASURES			
Flash point	: No data available			
Flammable Limits Upper explosion limit Lower explosion limit	<ul> <li>No data available</li> <li>No data available</li> </ul>			
Autoignition temperature	: No data available			
Suitable extinguishing media	: carbon dioxide (CO2), water, foam, dry chemical.			
Special Fire Fighting Procedures	: Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne contaminants. Cool closed containers exposed to fire with water spray Do not allow run-off from fire fighting to enter drains or water courses			
Unusual Fire/Explosion Hazards	: Burning dry latex produces dense black smoke with the possibility of toxic vapors. Residual latex material contained in empty drums may decompose when burned producing toxic or irritating fumes. Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.			
	6. ACCIDENTAL RELEASE MEASURES			
Personal precautions	: Ensure response personnel are properly protected (see section 8 for respiratory or other protection guidelines.) Use caution as floors may be slippery.			
Environmental precautions	: The product should not be allowed to enter drains, water courses or th soil.			
Methods for cleaning up	: Soak up with inert absorbent material (e.g. sand, silica gel, acid b universal binder, sawdust). Sweep up and shovel into suitable containers for disposal.			
	7. HANDLING AND STORAGE			

### MATERIAL SAFETY DATA SHEET WB-202

sion Number 1.0 ision Date 12/13/2006	Page 3 Print Date 11/25/2
Handling	: Use only in area provided with appropriate exhaust ventilation. Prolonged heating may result in product degradation. Material may settle during storage. Careful mixing without introduction of air may be necessary before use.
Storage	: Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep in a dry, cool place. Keep from freezing and temperature extremes.
8. EXI	POSURE CONTROLS / PERSONAL PROTECTION
Respiratory protection	: A respirator is normally not required for routine handling of product in areas of good general ventilation and adequate local exhaust at processing equipment during routine operation. Airborne contaminan- levels should be maintained below the occupational exposure guidelines.
Eye/Face Protection	: Safety glasses with side-shields. Wear goggles or face shield during operations that present a splash potential.
Hand protection	: Impervious gloves such as rubber or PVC
Skin and body protection	: Long sleeved shirts and long pants are adequate for normal handling. Where operations present a splash or spill potential, employees should wear chemically resistant clothing, boots, apron, gloves, and eye/face protection.
Additional Protective Measures	: Safety shoes.
General Hygiene Considerations	: Wash hands before breaks and immediately after handling the product Handle in accordance with good industrial hygiene and safety practices.
Engineering measures	: Adequate ventilation and/or appropriate respiratory protection may also be necessary to minimize employee exposure to processing vapors.
Exposure limit(s)	
There are no known hazardou	us components above regulatory thresholds in this product.
9	. PHYSICAL AND CHEMICAL PROPERTIES
Form	: liquid Evaporation rate : Slower than Buty

: liquid : liquid : NO PIGMENT : Slight Melting point/range : Not applicable

Appearance

Color

Odor

Evaporation rate Specific Gravity::Not determinedBulk density:Not applicable Bulk density Vapor pressure Vapour density

Acetate

: Not established : Heavier than air.

Boiling Point: Water solubility	: Not established pH : Not determined : Completely miscible				
10. STABILITY AND REACTIVITY					
Stability	: Stable.				
Hazardous Polymerization	: Will not occur.				
Conditions to avoid	: Extremes of temperature and direct sunlight. Keep from freezing.				
Incompatible Materials	: Acids, metal salts, and solvents				
Hazardous decomposition products	: Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.				
	11. TOXICOLOGICAL INFORMATION				
There are no known hazardous	components above regulatory thresholds in this product.				
	12. ECOLOGICAL INFORMATION				
Persistence and degradability	: No data available				
Environmental Toxicity	: No data available				
Bioaccumulation Potential	: No data available				
Additional advice	: No data available				
	13. DISPOSAL CONSIDERATIONS				
Product	: Where possible recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.				
Contaminated packaging	: Recycling is preferred when possible. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.				
	14. TRANSPORT INFORMATION				
U.S. DOT Classification	: Refer to specific regulation.				
ICAO/IATA (air)	: Refer to specific regulation.				

POLYONE CORPORATION

PolyOne.
