# Section 2. Hazards identification

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. After handling, always wash hands thoroughly with soap and water.

| OSHA/HCS status                            | : | While this material is not considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200), this SDS contains<br>valuable information critical to the safe handling and proper use of the<br>product. This SDS should be retained and available for employees and<br>other users of this product. |
|--|---|--|
| Classification of the substance or mixture | : | Not classified.  |
| GHS label elements                         |   |  |
| Signal word                                | : | No signal word.  |

Hazard statements

No known significant effects or critical hazards.

#### **Precautionary statements**

| General                          | : | Not applicable. |
|----------------------------------|---|-----------------|
| Prevention                       | : | Not applicable. |
| Response                         | : | Not applicable. |
| Storage                          | : | Not applicable. |
| Disposal                         | : | Not applicable. |
| Supplemental label elements      | : | None known.     |
| Hazards not otherwise classified | : | None known.     |

# Section 3. Composition/information on ingredients

:

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | FO20023928 |

CAS number/other identifiers

| Ingredient name                      | %       | CAS number |
|--------------------------------------|---------|------------|
| Lead chromate                        | 50 - 75 | 7758-97-6  |
| Diisodecyl phthalate (mixed isomers) | 10 - 25 | 68515-49-1 |
| Lead sulfate                         | 3 - 5   | 7446-14-2  |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# **Section 4. First aid measures**

Description of necessary first aid measures

|--------------------------|-----------------------|
| Revision Date 05/20/2016 | Print Date 05/21/2016 |

| Eye contact  | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|---|
| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| Ingestion    | : | Wash out mouth with water. Remove victim to fresh air and keep at<br>rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities<br>of water to drink. Do not induce vomiting unless directed to do so by<br>medical personnel. Get medical attention if symptoms occur. |

| Eye contact  | :           | No specific data.  |
| Inhalation   | :           | No specific data.  |
| Skin contact   | :           | No specific data.  |
| Ingestion  | :           | No specific data.  |
| Indication of immediate medical atter  | <u>ntio</u> | n and special treatment needed, if necessary   |
| Notes to physician   | :           | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.  |
| Specific treatments  | :           | No specific treatment.   |
| Protection of first-aiders   | :           | No action shall be taken involving any personal risk or without suitable training.   |

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

#### Extinguishing media

P<u>olyOne</u>

## STAN-TONE VDC-31941 YELLOW

Version Number 1.4 Revision Date 05/20/2016 Page 4 of 16 Print Date 05/21/2016

| Suitable extinguishing media<br>Unsuitable extinguishing media | : | In case of fire, use water spray (fog), foam, dry chemical or $CO_2$ .<br>None known.   |
|--|---|---|
| Specific hazards arising from the chemical                     | : | No specific fire or explosion hazard.   |
| Hazardous thermal<br>decomposition products                    | : | May emit Hydrogen Chloride (HCl).<br>Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides              |
| Special protective actions for fire-<br>fighters               | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters                 | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

# Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel<br>For emergency responders | : | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Put on appropriate personal protective equipment.<br>If specialised clothing is required to deal with the spillage, take note of<br>any information in Section 8 on suitable and unsuitable materials. See<br>also the information in "For non-emergency personnel". |
|---|---|---|
| Environmental precautions                               | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for containment and cleaning up   |   |   |
| Small spill   | : | Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.   |
| Large spill   | : | Move containers from spill area. Prevent entry into sewers, water<br>courses, basements or confined areas. Vacuum or sweep up material<br>and place in a designated, labeled waste container. Dispose of via a<br>licensed waste disposal contractor. Note: see Section 1 for emergency   |

contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

Precautions for safe handling

| Protective measures   | : | Put on appropriate personal protective equipment (see Section 8).  |
|---|---|--|
| Advice on general occupational                                  | : | Eating, drinking and smoking should be prohibited in areas where this  |
| hygiene   |   | material is handled, stored and processed. Workers should wash hands<br>and face before eating, drinking and smoking. Remove contaminated<br>clothing and protective equipment before entering eating areas. See<br>also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any incompatibilities | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept<br>upright to prevent leakage. Do not store in unlabeled containers. Use<br>appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

#### Control parameters

|                                  |   | PEL: Permissible Exposure Level 0.075 mg/m3                             |
|                                  |   |   |
| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker         |
|                                  |   | exposure to airborne contaminants.                                      |
| Environmental exposure controls  | : | Emissions from ventilation or work process equipment should be          |
|                                  |   | checked to ensure they comply with the requirements of                  |
|                                  |   | environmental protection legislation. In some cases, fume scrubbers,    |
|                                  |   | filters or engineering modifications to the process equipment will be   |
|                                  |   | necessary to reduce emissions to acceptable levels.                     |
| Individual protection measures   |   |   |
| Hygiene measures                 | : | Wash hands, forearms and face thoroughly after handling chemical        |
|                                  |   | products, before eating, smoking and using the lavatory and at the end  |
|                                  |   | of the working period. Appropriate techniques should be used to         |
|                                  |   | remove potentially contaminated clothing. Wash contaminated             |
|                                  |   | clothing before reusing. Ensure that eyewash stations and safety        |
|                                  |   | showers are close to the workstation location.                          |
| Eye/face protection              | : | Safety eyewear complying with an approved standard should be used       |
|                                  |   | when a risk assessment indicates this is necessary to avoid exposure to |
|                                  |   | liquid splashes, mists, gases or dusts. If contact is possible, the     |
|                                  |   | following protection should be worn, unless the assessment indicates a  |
|                                  |   | higher degree of protection: safety glasses with side-shields.          |
| Skin protoction                  |   |   |
| <u>Skin protection</u>           |   |   |

# STAN-TONE VDC-31941 YELLOW

| Version Number 1.4       | Page 7 of 16          |
|--------------------------|-----------------------|
| Revision Date 05/20/2016 | Print Date 05/21/2016 |
|                          |                       |

| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
|------------------------|---|
| Body protection        | : Personal protective equipment for the body should be selected based<br>on the task being performed and the risks involved and should be<br>approved by a specialist before handling this product.   |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures<br>should be selected based on the task being performed and the risks<br>involved and should be approved by a specialist before handling this<br>product.  |
| Respiratory protection | : Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |

# Section 13. Disposal considerations

•

**Disposal methods** 

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

United States - RCRA Acute hazardous waste "P" List: Not listed

United States - RCRA Toxic hazardous waste "U" List: Not listed

### Section 14. Transport information

| U.S. DOT Classification | : | Not regulated for transportation.                             |
|-------------------------|---|---|
| ICAO/IATA               | : | Not classified as dangerous good under transport regulations. |
| IMO/IMDG (maritime)     | : | Not classified as dangerous good under transport regulations. |
