POLYONE CORPORATION 8155 Cobb Center Drive, Kennesaw, GA 30152		
Telephone Emergency telephone number	:	1 (440) 930-1000 or 1 (866) POLYONE CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	AMMONIA DILUTED TO 10%
Product code	:	FO200287
Chemical Name	:	Mixture
CAS-No.	:	Mixture
Product Use	:	Industrial Applications

ComponentsCAS-No.Weight percentAmmonium hydroxide ((NH4)(OH))1336-21-61 - 5

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

This product is a water based mixture with an ammonia odor. The mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. The product is not combustible, but it will burn if involved in a fire, releasing hydrocarbon products of combustion. Inhalation of the ammonia from this product may cause respiratory irritation, coughing, sore throat, and labored breathing.

POTENTIAL HEALTH EFFECTS

Routes of Exposure:	: Skin contact, Inhalation, Ingestion
Acute exposure	
Inhalation	: Symptoms of breathing ammonia vapor concentrated from this product may include laryngitis, tracheitis, pulmonary edema, dyspnea, bronchospasms, and chest pains or pneumonitis. Symptoms are typically reversible.
Ingestion	: May be harmful if swallowed.
Eyes	: Liquid, aerosol, or vapors of this product are irritating and may cause tearing, reddening, and swelling accompanied by a stinging sensation and/or a feeling like that of fine dust in the eyes.
Skin	: Skin contact may cause redness, irritation, and burns.

Medical Conditions	: None known.
Aggravated by Exposure:	
	4. FIRST AID MEASURES
Inhalation	: Move to fresh air in case of accidental inhalation of vapors or fumes from overheating or combustion. When symptoms persist or in all cases of doubt seek medical advice.
Ingestion	: Do not induce vomiting without medical advice. Never give anythin by mouth to an unconscious person. Seek medical attention if necessary.
Eyes	: Rinse immediately with plenty of water for at least 15 minutes. If exirct irritation persists, seek medical attention.
Skin	: Wash off with soap and plenty of water. If skin irritation persists seek medical attention.
	5. FIREFIGHTING MEASURES
Flash point	: no data available
Flammable Limits Upper explosion limit Lower explosion limit Auto-ignition temperature Suitable extinguishing media	 no data available no data available no data available Carbon dioxide (CO2), Water, Foam, Dry chemical.
Special Fire Fighting Procedures	: Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne contaminants. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or wate courses.
Unusual Fire/Explosion Hazards	 Burning dry latex produces dense black smoke with the possibility o toxic vapors. Residual latex material contained in empty drums may decompose when burned producing toxic or irritating fumes. Carbor dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.
	6. ACCIDENTAL RELEASE MEASURES
Personal precautions	: Ensure response personnel are properly protected (see section 8 for respiratory or other protection guidelines.) Use caution as floors ma be slippery.
Environmental precautions	: The product should not be allowed to enter drains, water courses or

Methods for cleaning up	: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Sweep up and shovel into suitabl containers for disposal.
	7. HANDLING AND STORAGE
Handling : Use only in area provided with appropriate exhaust ventilation. Prolonged heating may result in product degradation. Material r settle during storage. Careful mixing without introduction of air be necessary before use.	
Storage	: Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep in a dry, cool place. Keep from freezing and temperature extremes.
8. EXI	POSURE CONTROLS/PERSONAL PROTECTION
Respiratory protection	: A respirator is normally not required for routine handling of product in areas of good general ventilation and adequate local exhaust at processing equipment during routine operation. If using a cartridge respirator, an ammonia cartridge is required to filter out potential excess ammonia vapors.
Eye/Face Protection	: Safety glasses with side-shields Wear goggles or face shield during operations that present a splash potential.
Hand protection	: Impervious gloves such as rubber or PVC
Skin and body protection	: Long sleeved shirts and long pants are adequate for normal handling Where operations present a splash or spill potential, employees should wear chemically resistant clothing, boots, apron, gloves, and eye/face protection.
Additional Protective Measures	: Safety shoes
General Hygiene Considerations	: Wash hands before breaks and immediately after handling the product. Handle in accordance with good industrial hygiene and safety practices.
Engineering measures : Adequate ventilation and/or appropriate respiratory protection also be necessary to minimize employee exposure to processin vapors.	
Exposure limit(s)

Form	: liquid	Evapouration rate	: Slower than But Acetate
Appearance	: liquid	Specific Gravity	: Not determined
Colour	: NO PIGMENT	Bulk density	: Not applicable
Odour	: Slight ammonia	Vapour pressure	
Melting point/range	: not applicable	Vapour density	: Heavier than air.
Boiling Point:	: Not established	pH	: Not determined
Water solubility	: completely miscible		
Stability	: The product is stat	ble if stored and handled as	prescribed.
Hazardous Polymerization	: Will not occur.		
Conditions to avoid	: Extremes of tempe	erature and direct sunlight.	Keep from freezing.
Incompatible Materials	: Acids, metal salts,	and solvents	
	: Carbon dioxide (C	O2), carbon monoxide (CC	

11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

CAS-No.	Chemical Name	Effect	Target Organ
1336-21-6	Ammonium hydroxide ((NH4)(OH))	Corrosive	Skin, Eyes.
		Toxic	Refer to LC50 / LD50 Data on MSDS

LC50 / LD50
