## **GEON E7370 WHITE 1146**

Version Number 1.0 Revision Date 05/03/2002 Page 1 of 6 Print Date 11/4/2011

### 1. PRODUCT AND COMPANY IDENTIFICATION

#### POLYONE CORPORATION 33587 Walker Road, Avon Lake, OH 44012

| NON-EMERGENCY<br>TELEPHONE    | : | Product Stewardship (440)-930-1395                                           |
|-------------------------------|---|------------------------------------------------------------------------------|
| Emergency telephone<br>number | : | CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident). |
| Product name                  | : | GEON E7370 WHITE 1146                                                        |
| Product code                  | : | VC10000589                                                                   |
| Chemical Name                 | : | Mixture                                                                      |
| CAS-No.                       | : | Mixture                                                                      |
| Product Use                   | : | Industrial Applications                                                      |

#### 2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS

| Components        | CAS-No.    | Weight % |
|-------------------|------------|----------|
| Calcium carbonate | 1317-65-3  | 1 - 5    |
| Quartz            | 14808-60-7 | 1 - 5    |
| Titanium dioxide  | 13463-67-7 | 5 - 10   |

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. See Sections 3 and 11 for additional details. This product may contain residual vinyl chloride monomer (VCM) (CAS number 75-01-4) below 8.5 ppm (0.00085%). OSHA considers VCM a suspect carcinogen and regulates it under 29 CFR 1910.1017. It is unlikely, under normal working conditions with adequate ventilation, that the OSHA action level and the OSHA exposure limits will be exceeded for residual VCM. However, the user should take the necessary precautions (e.g. mechanical ventilation, local exhaust ventilation, air-monitoring, respiratory protection, etc.) to ensure airborne levels of any vapors including VCM or dusts that may be released during heating or processing are below regulated levels.

#### POTENTIAL HEALTH EFFECTS

| Routes of Exposure:             | : Inhalation, Ingestion, Skin contact                                                                                                                                                                                             |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute exposure                  |                                                                                                                                                                                                                                   |
| Inhalation<br>Ingestion<br>Eyes | <ul> <li>Resin particles, like other inert materials, can be mechanically irritating.</li> <li>May be harmful if swallowed.</li> <li>Resin particles, like other inert materials, are mechanically irritating to eves.</li> </ul> |
| Skin                            | : Experience shows no unusual dermatitis hazard from routine handling.                                                                                                                                                            |

MATERIAL SAFETY DATA SHEET

# **GEON E7370 WHITE 1146**

Version Number 1.0 Revision Date 05/03/2002 Page 2 of 6 Print Date 11/4/2011

| Medical Conditions                | :    | None known.                                                                                                                                                                         |
|-----------------------------------|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Aggravated by Exposure:           |      |                                                                                                                                                                                     |
|                                   |      | 4. FIRST AID MEASURES                                                                                                                                                               |
| Inhalation                        | :    | Move to fresh air in case of accidental inhalation of fumes from<br>overheating or combustion. When symptoms persist or in all cases of<br>doubt seek medical advice.               |
| Ingestion                         | :    | Do not induce vomiting without medical advice. When symptoms persist or in all cases of doubt seek medical advice.                                                                  |
| Eyes                              | :    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.                                        |
| Skin                              | :    | Wash off with soap and plenty of water. If skin irritation persists seek medical attention.                                                                                         |
|                                   |      | 5. FIRE-FIGHTING MEASURES                                                                                                                                                           |
| Flash point                       | :    | Not applicable                                                                                                                                                                      |
| Flammable Limits                  |      |                                                                                                                                                                                     |
| Upper explosion limit             | :    | Not applicable                                                                                                                                                                      |
| Lower explosion limit             | :    | Not applicable                                                                                                                                                                      |
| Autoignition temperature          | :    | Not applicable.                                                                                                                                                                     |
| Suitable extinguishing media      | :    | water, dry powder, foam, carbon dioxide (CO2).                                                                                                                                      |
| Special Fire Fighting             | :    | Fullface self-contained breathing apparatus (SCBA) used in positive                                                                                                                 |
| Procedures                        |      | pressure mode should be worn to prevent inhalation of airborne                                                                                                                      |
|                                   |      | contaminants.                                                                                                                                                                       |
| Unusual Fire/Explosion<br>Hazards | :    | May emit Hydrogen Chloride (HCl) or Carbon Monoxide (CO) under fire conditions.                                                                                                     |
|                                   | 6. A | CCIDENTAL RELEASE MEASURES                                                                                                                                                          |
| Personal precautions              | :    | Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.                                                                                |
| Environmental precautions         | :    | Should not be released into the environment. The product should not be allowed to enter drains, water courses or the soil.                                                          |
| Methods for cleaning up           | :    | Clean up promptly by sweeping or vacuum. Package all material in plastic, cardboard or metal containers for disposal. Refer to Section 13 of this MSDS for proper disposal methods. |

### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

#### **Toxicity Overview**

This product contains the following components which in their pure form have the following characteristics:

| CAS-No.    | Chemical Name     | Effect           | Target Organ                    |
|------------|-------------------|------------------|---------------------------------|
| 1317-65-3  | Calcium carbonate | Irritant         | Eyes, Skin.                     |
|            |                   | Systemic effects | Eyes, Skin, Respiratory system. |
| 14808-60-7 | Quartz            | Systemic effects | Eyes, Respiratory system.       |
| 13463-67-7 | Titanium dioxide  | Systemic effects | Respiratory system.             |

Carcinogenicity:

This product contains the following components which in their pure form have the following carcinogenicity data:

| CAS-No.    | Chemical Name | OSHA | IARC | NTP |
|------------|---------------|------|------|-----|
| 14808-60-7 | Quartz        | no   | 1    | 1   |

IARC Carcinogen Classifications:

1 - The component is carcinogenic to humans.

2A - The component is probably carcinogenic to humans.

MATERIAL SAFETY DATA SHEET

## **GEON E7370 WHITE 1146**

Version Number 1.0 Revision Date 05/03/2002 Page 5 of 6 Print Date 11/4/2011

2B - The component is possibly carcinogenic to humans.

NTP Carcinogen Classifications:

1 - The component is known to be a human carcinogen.

2 - The component is reasonably anticipated to be a human carcinogen.

## Additional Health Hazard Information:

Quartz 14808-60-7 This material in its free releasable form may cause respiratory tract irritation, and possibly silicosis which is a scarring of the lungs.
