### : Industrial Applications

### 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Components  | CAS-No.    | Weight percent |
|---|------------|----------------|
| Manganese antimony titanium brown rutile<br>(C.I. Pigment Yellow 164) | 68412-38-4 | 1 - 5          |
| Calcium carbonate   | 1317-65-3  | 1 - 5          |
| Calcium stearate  | 1592-23-0  | 1 - 5          |
| Chromium (III) oxide  | 1308-38-9  | 1 - 5          |
| Titanium dioxide  | 13463-67-7 | 5 - 10         |

### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

This mixture has not been evaluated as a whole. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating or processing. The end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions. May emit Hydrogen Chloride (HCl) or Carbon Monoxide (CO) under fire conditions.

#### POTENTIAL HEALTH EFFECTS

| Routes of Exposure: | : Inhalation, Ingestion, Skin contact  |
|---------------------|--|
| Acute exposure      |  |
| Inhalation          | : Resin particles, like other inert materials, can be mechanically irritating.   |
| Ingestion<br>Eyes   | <ul><li>May be harmful if swallowed.</li><li>Resin particles, like other inert materials, are mechanically irritating to</li></ul> |

PolyOne.

| Chronic exposure   | : Refer to Section 11 for Toxicological Information.   |      |
|--|--|------|
| Medical Conditions       : None known.         Aggravated by Exposure: |  |      |
|  | 4. FIRST AID MEASURES  | _    |
| Inhalation   | : Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. When symptoms persist or in all case doubt seek medical advice.  | s of |
| Ingestion  | : Do not induce vomiting without medical advice. When symptom persist or in all cases of doubt seek medical advice.  | 3    |
| Eyes   | : Rinse immediately with plenty of water, also under the eyelids, fo least 15 minutes. If eye irritation persists, seek medical attention.   | r at |
| Skin   | : Wash off with soap and plenty of water. If skin irritation persists seek medical attention.  |      |
|  | 5. FIREFIGHTING MEASURES   |      |
| Flash point  | : not applicable   |      |
| Flammable Limits   |  |      |
| Upper explosion limit  | : not applicable   |      |
| Lower explosion limit<br>Auto-ignition temperature                     | <ul><li>not applicable</li><li>Not applicable</li></ul>  |      |
| Suitable extinguishing media   | : Carbon dioxide blanket, Water spray, Dry powder, Foam.   |      |
| Special Fire Fighting<br>Procedures                                    | : Fullface self-contained breathing apparatus (SCBA) used in positi<br>pressure mode should be worn to prevent inhalation of airborne  | ve   |
| Unusual Fire/Explosion<br>Hazards                                      | <ul> <li>contaminants.</li> <li>May emit Hydrogen Chloride (HCl) or Carbon Monoxide (CO) un fire conditions. Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke a all possible.</li> </ul> |      |
|  | ACCIDENTAL RELEASE MEASURES  |      |
| Personal precautions   | : Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.   |      |
| Environmental precautions  | : Should not be released into the environment. The product should be allowed to enter drains, water courses or the soil.   | not  |

# MATERIAL SAFETY DATA SHEET **GEON 87416 Beige 3238**

Version Number 1.3 Revision Date 03/29/2014 Page 3 of 8 Print Date 4/5/2014

|                                   |      | 7. HANDLING AND STORAGE   |
|-----------------------------------|------|---|
| Handling                          | :    | Take measures to prevent the build up of electrostatic charge. Heat<br>only in areas with appropriate exhaust ventilation. Processing fume<br>condensates may contain combustible or toxic residue. Periodically<br>clean hoods, ducts, and other surfaces to minimize accumulation of<br>these materials.  |
| Storage                           | :    | Keep containers dry and tightly closed to avoid moisture absorption<br>and contamination. Keep in a dry, cool place.  |
| 8. EX                             | POSU | RE CONTROLS/PERSONAL PROTECTION   |
| Respiratory protection            | :    | No personal respiratory protective equipment normally required. If dusty conditions occur wear appropriate respiratory protection.  |
| Eye/Face Protection               | :    | Safety glasses with side-shields  |
| Hand protection                   | :    | Protective gloves   |
| Skin and body protection          | :    | Long sleeved clothing   |
| Additional Protective<br>Measures | :    | Safety shoes  |
| General Hygiene<br>Considerations | :    | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. This product may contain residual vinyl chloride monomer (VCM) (CAS number 75-01-4) below 8.5 ppm (0.00085%). It is unlikely, under normal working conditions with adequate ventilation, that the exposure limits will be exceeded for residual VCM. However, the user should take the necessary precautions (e.g. mechanical ventilation, local exhaust ventilation, air-monitoring, respiratory protection, etc.) to ensure airborne levels of any vapors including VCM or dusts that may be released during heating or processing are below regulated levels. |
| Engineering measures              | :    | Heat only in areas with appropriate exhaust ventilation. Provide appropriate exhaust ventilation at machinery.  |
| Exposure limit(s)                 |      |   |

|                                  | 10. STABILITY AND REACTIVITY  |
|----------------------------------|---|
| Stability                        | : The product is stable if stored and handled as prescribed.  |
| Hazardous Polymerization         | : Will not occur.   |
| Conditions to avoid              | : Keep away from oxidizing agents and open flame. To avoid thermal decomposition, do not overheat.  |
| Incompatible Materials           | : Incompatible with strong acids and oxidizing agents., Avoid contact with acetal homopolymers and acetal copolymers during processing.   |
| Hazardous decomposition products | : Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible.<br>Prolonged heating (approximately 30 minutes or more) above 392 °F (200 °C) or short term heating at 482 °F (250 °C) may result in product decomposition and evolution of carbon monoxide and hydrogen chloride. |

### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

#### Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

| CAS-No.    | Chemical Name  | Effect           | Target Organ                    |
|------------|--|------------------|---------------------------------|
| 68412-38-4 | Manganese antimony<br>titanium brown rutile (C.I.<br>Pigment Yellow 164) | Irritant         | Eyes, Skin.                     |
| 1317-65-3  | Calcium carbonate  | Irritant         | Eyes, Skin.                     |
|            |  | Systemic effects | Eyes, Skin, Respiratory system. |
| 1308-38-9  | Chromium (III) oxide   | Irritant         | Eyes, Skin.                     |
|            |  | sensitizer       | Skin.                           |
| 13463-67-7 | Titanium dioxide   | Systemic effects | Respiratory system.             |

### LC50 / LD50

This product contains the following components which, in their pure form, have the following toxicity data:

| CAS-No.   | Chemical Name    | Route     | Value      | Species |
|-----------|------------------|-----------|------------|---------|
| 1592-23-0 | Calcium stearate | Oral LD50 | > 10 gm/kg | rat     |

Carcinogenicity

This product contains the following components which, in their pure form, have the following carcinogenicity data:

| CAS-No. | Chemical Name | OSHA | IARC | NTP |
|---------|---------------|------|------|-----|
|         |               |      |      |     |
